This Home Inspection Agreement (“Agreement”) is hereby entered into this date as set forth above, by and between Wise Move Home Inspections, Inc. (“Inspector”) and Client. Inspector is hereby engaged to perform a visual home inspection at the following property location: \_\_\_\_\_ (“Property”).

In consideration of the mutual promises, covenants and agreements contained herein, Client and Inspector agree as follows:

1. **SCOPE OF INSPECTION:** Inspector agrees to perform a limited visual inspection of the Property and to provide Client with a written report as to the apparent general condition of the Property’s components and systems, including identification of significant observable deficiencies, as they exist at the time of the inspection. The Inspector’s findings are based on a visual, non-destructive inspection of the Property. The Client agrees that items, systems and components to be additionally included or omitted from the report will be determined solely by the inspector performing the inspection and agreed in writing.

- a. The visual inspection of the Property includes an inspection of open, accessible and apparent building components that are specifically identified in Inspector’s report. Any area, which is not exposed to view, is concealed, is inaccessible because of soil, walls, floors, carpets, ceilings, furnishings or any other thing, or those areas/items, which have been excluded is not included in this inspection. Inspector shall not alter, build, repair, destroy, dismantle, maintain and/or service any building component that falls within the scope of this Agreement. Upon the delivery of the Inspector’s report to the Client, Inspector shall have fully and completely discharged Inspector’s duties and obligations pursuant to this Agreement.
- b. The inspection report does not determine whether the property is insurable, nor will it include an appraisal of the value or a survey. Additionally, the inspection report is not a compliance inspection or certification for past or present governmental codes or regulations of any kind.
- c. The inspection is limited to what can be easily detected during a short period of time; the duration of the inspection of a typical home is roughly 2-4 hours. It is impossible to find every defect and deficiency during an inspection, therefore Client should anticipate additional defects/deficiencies during ownership of the Property. Weather conditions or other conditions which are beyond the control of the Inspector and which may affect and limit the inspection are accepted by Client without additional burden to Inspector.
- d. The written report to be prepared by Inspector shall be considered the final and exclusive findings of Inspector of the Property. Client understands and agrees that Client will not rely on any oral statements made by the Inspector prior or subsequent to the issuance of the written inspection report. Client further understands and agrees Company reserves the right to modify the inspection report for a period of time that shall not exceed two (2) business days after the inspection report has first been delivered to the Client.

2. **STANDARDS OF INSPECTION:** The inspection performed by Inspector shall be performed in accordance with the current Standards of Practice of the International Association of Certified Home Inspectors (Inter NACHI).

3. **PAYMENT:** Client shall pay Inspector the sum of \$\_\_\_\_\_ for the visual home inspection to be performed pursuant to this Agreement. Payment in full is due immediately upon completion of the inspection. No written report will be issued until full payment is received. A 10% late fee per month will be charged for all late payments. All costs, including but not limited to, collections, liens & legal fees to recover past due payments will be added to the customer final bill. A \$50.00 fee will be added to all returned checks.

4. **ACCESS TO THE PROPERTY:** Client agrees that all necessary arrangements will be made with Inspector to enter and inspect the Property. Access to the Property shall include, but is not limited to, the roof, attic, the complete interior of the building, closets, and garages. Any areas of the Property that the Client desires to exclude from Inspector’s access shall be specifically listed, in writing, by the Client prior to the inspection. In addition to the other limitations provisions in this Agreement, Client agrees to assume all the risk for all conditions which are concealed from view at the time of the inspection or exist in any area excluded from Inspection by the terms of this agreement.

5. **THIRD PARTY BENEFICIARIES:** The contents of the inspection report and any representation made within are intended for the sole use and benefit of the Client, and are not assignable to any other third party without Inspector's express written permission. Any reliance thereon by any party other than the Client is prohibited.
6. **EXCLUSIONS AND LIMITATIONS:** Client acknowledges and agrees that any inspection report and the findings within are limited in scope and nature, and that the following items are among those that are NOT COVERED, nor can they be accurately assessed by Inspector during a limited inspection: any and all latent or concealed defects, deficiencies, and conditions; any and all environmental hazards, defects, ad conditions (including asbestos, lead paint, lead water pipes, lead solder, urea formaldehyde, toxic wastes, flammable materials, polluted water, molds and fungi); the extent of damage in defective areas; free standing heating stoves; humidifiers, air purifiers, motorized dampers; heating systems and accessories; Solar heating; insulation effectiveness; energy efficiency measurements; paint, wallpaper and other treatments to windows, interior walls, ceilings and floors; fire escapes; elevator components and shafts; internal gutter and downspout systems; air quality analysis; concealed wiring; subsurface soil conditions below and surrounding the building; the adequacy or condition of earth tie-downs for manufactured/mobile homes; the toxicity and combustibility of all materials and finishes; chimney flues; through wall air conditioners; central vacuum systems; fire sprinkler systems, fire and smoke detection systems; concealed insulation; locks and security devices; acoustical tests; automatic smoke vent dampers; underground storage and fuel tanks; heat loss analysis; fan driven exhaust systems for central heating flues; exterior plumbing components (including private sewer systems, buried pipes, connection to public sewer lines, buried components of sprinkler systems and swimming pools and their equipment); water supplies (including water wells, water conditioning equipment, water quality, water softener, volume of well water); ancillary electrical systems (including TV cable systems and antennas, intercom systems, telephone systems, lightning protection systems, heating cables, door opening and doorbell systems, fire alarm systems, security systems, telephone systems); recreational equipment or facilities; pest infestation, including termites, wood borers, carpenter ants, fire ants, bees, rodents, insects, pest or other wood destroying organisms required to be reported under the Florida Pest Control Act; trees or plants; code compliance, ordinances, statutes and covenants and manufacturer specifications, recalls, EIFS.
